MURRAY'S ADA SPEECH

ADDRESSES LARGE CROWD ON
QUESTION OF REPEAL OF
PROHIBITION LAW.

RIDDLES AMENDMENT

Exposes Jokers and Shows How the
Measure Would Work in Actual
Practice.

Yesterday afternoon Hon. Wm. H. Murray delivered the finest and most convincing speech in opposition to the proposed liquor amendment we ever heard along that line, and for being pointed and filled with indisputable facts was equal to any we ever heard on any subject. Prof. Howerton introduced the speaker and he lost no time in getting down to the business of the hour. His argument was devoted mainly to exposing the glaring defects and jokers in the proposed measure and how it would work in actual practice. At the beginning of his address he devoted a little attention to the prohibition law as we now have it. He laid down the proposition that the great train of evils, gambling, intemperance and sexual debauchery are inseparable, and that where the open saloon exists the others naturally follow. He declared that prohibition can be enforced as well as any other law, but added that the local officers must have the support of the state officers charged with the enforcement of the law, "and," said he, "there has never been a sincere and conscientious effort on their part to enforce the law in Oklahoma." His remedy in dealing with bootleggers is to put them on the public road. He has no faith in the pardon and parole system.

"I don't see how any honest man, pro or anti, can vote for the measure as submitted," declared Mr. Murray by way of introducing his remarks on the injustice and inequalities of the proposed amendment. In the first place, it will be declared unconstitutional for the reason that two subjects are embraced in the measure. One repeals the separate amendment adopted by the people at the first state election, and the other seeks to repeal the section inserted by the constitutional convention applying to the Indian Territory. The law specifically says that only one subject can be embraced in any one bill. In the next place the federal courts would knock out the law so far as it applies to the Indian Territory part of the state, because under the provision in the constitution of the United States congress is given full power to deal with Indian tribal matters, and by every decision of the supreme court the acts of congress in dealing with the Indian tribes have been upheld. Therefore while the tribal existence is maintained, Indian Territory cannot be voted wet.

In framing the constitution of Oklahoma, except certain sections relating to corporations, the legislature was given ample power to pass measures vitalizing sections of the constitution, but this measure denies it the right to amend the law as necessity might show it was needed. The measure gives a board of four absolute power in granting license and no restrictions are placed on the locality of a town in which saloon may be located as is done in other states. As a revenue producer he gave as examples towns the size of Francis and Roff where only one saloon could be established. The town would get \$1,000 of the license money and be compelled to pay \$1,200 in salaries to the commissioners.

The bill provides that any holder of a license must be a freeholder. That, he said, is designed to give the distillers a greater monopoly than ever. Few men able to own land are going to engage in the saloon business. Then the brewers would simply deed the prospective saloon keeper a piece of ground and tie him up with a vendor's lien by means of which they can close him out any time he might be feeling independent and inclined to buy his goods from some other house.

If a town goes dry the first election, the saloon men can get another

election within twenty days, and keep up the process indefinitely. Finding the strength of the prohibitionists it would be an easy matter to import enough voters to overcome any majority polled the first election, and once wet there can be no more elections for five years.

The measure says that no person may pay for the drinks for another, except it be a father, mother or guardian purchasing for their children. This, he said, is for the purpose of dodging the law forbidding sales to minors, a law that causes saloon keepers more trouble than any other. How easy it would be, he said, for any street bum to pass himself off for the father of some minor who had the money to pay for the drinks and the bartender escape prosecution.

He also dwelt at some length on the fact that the measure would disfranchise all voters living in the country. He paid a glowing tribute to the sturdy characters the country districts produced and showed how it is that the cities must depend on the country for its new blood; that owing to the great immorality existing in the cities the death rate often exceeds the birth rate. Greece, Rome and all nations that have fallen went down because the country became as corrupt as the town.

The whole scheme, in Mr. Murray's opinion, is to make the east side voters pull the chestnuts out of the fire for the whisky interests, because the west side, where saloons once existed will cast a heavier dry vote this time than three years ago.

He closed his speech with a fine

tribute to the home as an institution and the necessity of keeping it pure.

FORMER PONTOTOC BOY IN SERIOUS TROUBLE

The report comes here that Wm. Huff and his brother Carl Huff, are in the Chickasha jail for killing a man at Allen Saturday night.

Alex is a few miles out of Chickasha and the trouble is said to have started at a dance. The name of the person who lost his life is not known to us at the present.

The Huff boys are young men not out of their teens and with their father George Huff lived south of Roff for a long time.

The father of the boys phoned for R. C. Roland who left for Chickasha on the O. C. this morning.

Weather Forecast for the Current Week.

Washington, Oct. 23.—Generally fair weather over the greatest part of the country is the weather prediction for this week. In the North Pacific states a disturbance now hovering over the North Pacific ocean will cause rain and unsettled conditions early in the week. Later in the week this will spread to the northern states.

The Cotton Market.

Cotton is still on the down grade. Today it is selling from 13.50 to 13.60. New York futures are reported to be about 20 points down.

TWO KILLED AND TWO WOUNDED

FIGHTS IN SEMINOLE COUNTY
RESULT FATALLY.

OFFICER IS KILLED

Bad Whisky Getting in Its Work on
Little River.

Wewoka, Okla., Oct. 23.—Two were killed and two others, one a woman, wounded in pistol fights among the mixed Indians and negroes in the southern part of Seminole county Saturday night and Sunday.

The first fight occurred late Saturday night at a dance attended by negroes and half-breed Indians and negroes at Little River, in the south central portion of Seminole county. This fight arose over a brawl which started on account of a negro woman.

Warren Davis was killed, Jewell Davis, his sister, wounded in the leg, and Randolph Cudjo wounded in the leg. Cudjo's leg was broken.

The second fight occurred Sunday while Davis' father was in Wewoka buying a coffin. John Marshall shot and killed John Dennis, one of the most influential negroes in the county. Dennis was a federal deputy constable before statehood. Marshall was arrested. The cause of the fight is not known.

In connection with the first fight, T. H. Williams, who lives in the Little Creek country, came to Wewoka Sunday and swore to a complaint charging Warren Davis with the shooting of the others. Warren Davis is no relation to the dead man.

The Little River section is famous all over the county as the toughest portion. There is a saying among

the negroes that "when a Little Creek negro shows up the rest take to the bushes."

Williams declared further that on account of a universal custom in the Little Creek country for every one who was physically able to stand the weight of a pistol to carry one. He said the recent bad blood and high state of feeling among the negroes in that section was partly accounted for by quantities of bad whisky which had been shipped into the section. He absolutely refused to say who he believed was responsible for shipping it in. Williams is a republican.

Williams declared further that on account of the rowdiness that prevailed in that neighborhood, it was impossible to hold schools or church services. Such a gathering always broke up in a fight, he said.

Railroad Building in Oklahoma.

Guthrie, Ok., Oct. 23.—H. Leon Miller, who organized and promoted the Winnipeg, Salina and Gulf railroad several years ago, is again at work on the proposition in Southern Kansas and Northwestern Oklahoma, and is going over the proposed route and holding meetings in various towns along the line. He states that bonds necessary for the road's construction have been negotiated in London. In Oklahoma the proposed line strikes Alva, Aline, Fairview and Taloga.

Officials of the Buffalo and Northern Oklahoma during the past week, seeking a connection for their proposed line to the eastward, their aim being to make it a feeder to some trunk line. The company was chartered with \$100,000 capital stock and with E. M. Best of Buffalo as president. The surveys are being made at the present time under the direction of Eugene Tilleux of Hutchinson, Kansas.

Mr. and Mrs. C. W. Davis, Mr. and Mrs. E. K. McGinnis and Rev. Appleton were here from Sulphur yesterday and today.

MAY HAVE TROUBLE IN SEMINOLE COUNTY

The Oklahoman's story of threatened trouble in Seminole county has been hooted at by many of our citizens, but Judge Tom D. McKeown, who campaigned over there last week and was in a number of places, states that the fear of trouble is not altogether unfounded. Where the negroes are numerous threats have been heard that they will vote in the November election, regardless of the grandfather clause. The white citizens are determined that they shall not, and any attempt on the part of the negroes to vote in violation of the law will be the signal for trouble and lots of it.

Frisco to Use Oil for Fuel.

Fort Worth, Tex., Oct. 23.—The Frisco has discovered that oil is a cheaper fuel than coal and soon all its locomotives operating north of Fort Worth will be equipped with oil burners. During the past few weeks locomotives operating through Paris, both freight and passenger, have been supplied with oil burners, and it is announced that all engines operating through Sherman will be burning oil soon.

For the present, however, according to an announcement from the Fort Worth Frisco offices Saturday, the engines on the Fort Worth & Rio Grande will continue to burn coal.

The road officials say oil is a more satisfactory as well as a cheaper fuel than coal, and gradually oil will be worked into exclusive use all over the Frisco system. Large supplies of oil are being stored at points on the two Frisco tracks running north of Fort Worth.

BIG PROHIBITION RALLY AT ROFF AND FITZHUGH

Sunday afternoon Profs. Briles and Fentem conducted a prohibition rally at Fitzhugh at which some effective work was done. In the evening they and Dr. Rolla G. Sears, who had preached at Roff that morning, held another rousing meeting at Roff. The people down there are waking up to the importance of the duty of the hour, and are going to be heard from in November.

THE AMERICAN HALL OF FAME.

Rome had its pantheon dedicated to all the gods. France dedicated a building at Paris to the memory of great men of the nation, and a few years ago Miss Helen Gould provid-
ed a hall of fame for New York Uni-
versity where the names of great
Americans are enshrined. Places were
arranged for 150 bronze tablets and
on these the names and a few facts
concerning the lives of those con-
sidered worthy are engraved. A com-
mittee composed of 100 writers, edu-
cators, jurists and other learned men
decide by ballot who is entitled to a
tablet. The first election took place
in 1900 when 200 names were pre-
sented to the committee from which
they were to select not more than
fifty names. Only twenty-nine receiv-
ed the necessary fifty-one votes, how-
ever. Every five years this commit-
tee ballots on additional names. No
one is eligible until at least ten
years after his death.

The third election has just taken
place. Eleven were selected this
time. It is to be noted that men iden-
tified with the Southern cause, or for
that matter coming from the South
have not fared very well at the hands
of the committee. Gen. Lee is the
only Confederate soldier thus far
honored, although a number of lead-
ers on the Union side of much less
note than Stonewall Jackson have
been thus immortalized. It was only
at this last election that Andrew
Jackson or Edgar Allen Poe receiv-
ed a majority vote. Henry Clay and
Daniel Webster were chosen at the
first election, but Jno. C. Calhoun
has always fallen behind. As an elec-
tion will occur every five years un-
til the year 2,000, it is to be hoped
that in course of time sectional prej-
udice will have sufficiently disappear-
ed to permit justice to all.

DAVID B. HILL.

The death of David B. Hill of New
York removes the last of a group of
most brilliant statesmen the United
States ever knew. Tilden, Hendricks,
Blaine, Lamar, Cleveland, Carlisle,
Vest, Coke and a dozen lesser lights
all occupied the political stage and
when they clashed the battle was one
of giants. Among the democrats Hill
ranked next to Cleveland. Hill was a
politician to the core and was filled
with a consuming ambition that fate
had decreed should never be grati-
fied. Step by step he mounted the
ladder of fortune, mayor of Elmira,
Lieutenant governor, governor and
United States senator. These honors
would have satisfied most men, but
Hill ever longed to occupy the White
House. He and Cleveland were usual-
ly at loggerheads and this fact prob-
ably accounts for his failure to win
the nomination. His years
were embittered by keen disappoint-
ment, for to a man of his tempera-
ment nothing could be more terrible
than to know his supreme ambition
was unattainable, and that his name
would be forgotten almost as soon as
the last clod fell upon his coffin.

HOW THE TARIFF WORKS.

The protectionist who declares that
the Payne-Aldrich law is the best
ever enacted and that the burden
falls on the shoulders of the rich,
are cited to the following example
of the practical workings of the
measure.

Blankets valued under 40 cents per
pound, the tariff is 192.09 per cent.
This is the poor man's blanket. Blan-
kets valued from 40 cents to 70 cents
per pound 119.32 per cent, a differ-
ence of 72.77 per cent in favor of
the man who pays the high price for
blankets. This is the rich man's
blanket, and he gets off with the less
burden of tariff tax.

One thing that has done much to
make Oklahoma City the manufactur-
ing center of the state is the fact
that the boosters there never turn-
ed down a new enterprise because it
was small. They figured that if it
located there it would grow some
and they seldom missed their guess.

Pure in the Can

Pure in the Baking

Do you know? Baking Powder
undergoes a chemical reaction in the
process of baking which entirely changes
the nature of the original substance? It's a fact.

One of the greatest authorities on Chemistry in the
country found that a loaf of bread made from a quart
of flour, leavened with Cream of Tartar Baking Powder,
contained 45 grains more Rochelle Salts than is contained in
one Sedlitz Powder.

Remember, this drug was not in the can. It was formed by the
chemical reaction that took place in baking.

That is why so many baking powders which produce impurities in the
baking can be advertised as "absolutely pure." It may be pure in the can,
but it is not necessarily pure in the food.

CALUMET is absolutely free from every impurity. Food leavened with it contains
no Tartaric Acid, Rochelle Salts, Alum, Lime or Ammonia. It is chemically correct.

CALUMET is the only high-grade baking powder sold at a moderate price. Do
not confuse it with the cheap and big can kinds, or the high-priced Trust brands.
It stands alone.

No state ever entered the Union
and passed as many beneficial laws
as Oklahoma has done in three years
time. The democratic state adminis-
tration has written upon the statute
books of Oklahoma more beneficial
legislation in the past three years
than was ever enacted by any other
state in a similar length of time. If
our republican opponents can name a
single state that has passed as many
laws in the people's interest as Ok-
lahoma, every democratic nominee in
the state will be willing to withdraw
his name from the ticket.

The Ardmoreite wants to start a
boycott on the Hearst papers. No-
body reads the Hearst papers be-
cause they want to help Hearst out.
They buy his papers because they
contain a lot of stuff that is interest-
ing to them.—McAlester News-Cap-
ital.

You are right, and come to think
about it any line of business must be
what the people want, if it is to be
a success. People will not patronize
even their best friends for sentiment-
al reasons.

Several men in South Carolina in
the days of the dispensary became
immensely wealthy while serving on
the state purchasing board at a sal-
ary of \$400 per year. If the propos-
ed measure should be adopted many
saloon commissioners in Oklahoma
would follow their example, for the
board is answerable to no one.

The liquor interests have always
fought over every inch of the ground
when the government attempted to
regulate the trade. Can we expect
anything else if the present amend-
ment carries. The interests will cer-
tainly not yield an inch or overlook
a single loophole.

Attention is called to the fact that
the registration books are open for
only this week that any who did not
register just prior to the primary
may do so now. If you did not regis-
ter then you must do so now if you
are to be permitted to vote in No-
vember.

From careful inquiries concerning
the sentiment in every quarter of
the county, we are safe in predicting
a much heavier pro vote this time
than three years ago. The active
campaign is having its effect.

Everyone should read the synopsis
of Bill Murray's speech that will be
found in another column. The only
thing we regret is the fact that we
could not give more of it.

Oklahoma Tax Assessments.

Guthrie, Ok., Oct. 23.—The official
figures of the state auditor compiled
Saturday shows that for the 1910
taxing period the assessed valuation
of Oklahoma public-service corpora-
tion property reaches a total of \$223-
099,249, as against \$214,877,203, for
last year, or a gain of \$8,222,046. All
classes show an increase, save that
of telegraph companies, which is due
to an error of last year's rolls. The
leading class is railroad property,

show a total for this year of \$188-
661,820, an increase of \$6,611,888.
Pipe lines show for 1910 a valuation
of \$22,096,277, an increase of \$2,005-
606. Other valuations are express
companies, \$80,204; telegraph lines,
\$1,307,655; street car companies, \$1-
602,802; private car lines, \$826,749;
telephone lines, \$3,042,430; electric
light, heat and water companies, gas
pipe lines, etc., \$5,418,312.

Tulsa county shows the heaviest
valuation of public-service property,
being \$11,266,380, the second being
Oklahoma county, with \$9,187,128, and
the third Washington, with \$9,174,913.
Washington's valuation is assisted by
\$6,622,842 worth of pipe line. Fourth
in the list is Creek county, with a
total of \$6,650,889, of which \$3,465-
946 is pipe line, next being Pitts-
burg with \$6,482,483 of which \$5,942-
862 is railroad property; sixth being
Le Flore county showing a total of
\$6,326,736, all but \$229,740 is railroad
property; and seventh, is Garfield
county, with \$6,198,714, of which \$5-
775,673 is credited to the railroads.
Other counties appear in the follow-
ing order: Lincoln, \$5,806,061; Mus-
kogee, \$5,750,915; Pottawatomie, \$5-

706,009, and Osage, \$5,152,242. Cimar-
ron county is the lowest in the list
with but \$2,110, others being as fol-
lows: Harmon, \$3,810; Roger Mills,
\$1,360; Harper, \$4,536, and Beaver,
\$8,706.

Beaver, Cimarron, Harper, Roger
Mills and Harmon counties show
neither railroad, telegraph nor ex-
press property for taxation. Twenty-
two counties have no pipe lines,
and twenty-eight counties no electric
light, water, gas pipe line property.
The street car and interurban rail-
way valuation is confined to fourteen
counties.

The compilation does not include
the real estate or personal property,
which classes are not yet completed.

He had been in bad health for several years. About two years ago he left here and moved to Story, Okla., and went to Texas a short time ago thinking it would improve his health.—Stonewall News.

Tandy Walker Dead.

Yesterday morning, shortly after midnight, Tandy Walker, passed away at his home near Stonewall, aged 71. The interment took place in the afternoon at the Frisco cemetery.

The death of Tandy Walker removes one of the old landmarks of the Chickasaw and Choctaw nations. He was from two of the most prominent families of the nations, his father being Elisha Walker, brother of Gov. Tandy Walker of the Choctaw Nation and his mother a chieftess of the Chickasaw Nation. He was a half-brother of Gov. D. H. Cheadle of the Chickasaw Nation. He was born at Oak Lodge, Skullyville County, Choctaw Nation.

He served in the Confederate army as scout under Gen. Ben McCulloch. He was always a prominent figure in tribal affairs. At different times he served as delegate to Washington, member of the Chickasaw senate and as permit collector.

A New Way of Closing Joints.

Memphis, Tenn., Oct. 23.—For the first time in a generation Memphis' 700 drinking places remained closed all day Sunday in obedience to an injunction temporarily issued yesterday by Federal Judge John E. McCall at the instigation of the Law and Order League.

The league was urged on to the action by nonresident property owners, who allege the drinking places, operated in violation of the statewide prohibition law, depreciate the value of the adjacent property and thus constitute a violation of the fourteenth Amendment to the federal constitution which guarantees equal protection to property under the law.

Prominent democrats assert the injunction is the result of pressure emanating at Washington to show the independent (prohibition) democratic faction that the republican party is sincere in its fight on the liquor traffic.

PASTIME TO-NIGHT

MUCH LAND TO BE SOLD

70,000 ACRES IN PONTOTOC COUNTY WILL BE PUT ON THE MARKET.

Muskogee, Okla., Oct. 22.—The government has made public its regulations under which the two millions of acres of unallotted land in the five civilized tribes will be sold, as well as fixed the dates and places when the sales will be conducted. The first sale will be in the Seminole nation, at Wewoka, Nov. 21. Following that date sales will be made in every county in eastern Oklahoma where there is land that has not been allotted.

The land that is adapted to farming will be sold in tracts not to exceed 160 acres, but where it is rough grazing or timber land the size of the tracts will run up to 640 acres. The government will demand 25 percent of the purchase price in cash, 25 percent within six months and 50 percent within eighteen months, but any land can be paid out at any time. The deferred payments bear 6 percent interest. The land will be sold at auction to the highest bidder and must bring the appraised value, but the highest appraisement is only \$13 per acre.

The places of sale, the dates, the number of separate tracts to be sold and the total number of acres in each county, follow:

Chickasaw Nation.
Grady county—At Chickasha, 1,247 tracts, 81,000 acres, Dec. 1.
Stephens county—At Duncan, 1,412 tracts, 126,370 acres, Dec. 14.
Love county—At Marietta, 1,121 tracts, 96,000 acres, Dec. 19.

Carter county—At Ardmore, 1,618 tracts, 120,400 acres, Dec. 23.
Murray county—At Sulphur, 624 tracts, 41,800 acres, Dec. 29.

ELECTIONS TO HALL OF FAME

New York, Oct. 21.—Edgar Allan Poe is at last in the Hall of Fame. Years of effort on the part of staunch supporters to get his name added to the list was rewarded today by the announcement of Dr. John H. MacCracken, chairman of the senate of New York University, that the author of "The Raven," with ten others, had been accorded this honor. The

eleven names added are as follows: Harriet Beecher Stowe, 74 votes; Oliver Wendell Holmes and Edgar Allan Poe, 69 votes each; Roger Williams, 64; James Fenimore Cooper, 62; Phillips Brooks, 60; William Cullen Bryant, 59; Francis E. Willard, 56; Phillips Brooks, 60; William Cullen Bryant, 59; Francis E. Willard, 56; Phillips Brooks, 60; William Cullen Bryant, 59; Francis E. Willard, 56.

The total number of ballots cast was 97 and the number required for choice was 51. Poe's vote jumped from 42 in 1905 to 69, an increase of 27 votes. An analysis of the vote shows that of this 69 votes, 21 were cast by College presidents, 17 by professors of history and scientists, 18 by publicists, editors and authors, and 14 by jurists.

West to Poe's Rescue.
Contrary to the general impression, the memory of the poet is as famous in the West as in the South, according to the vote. Since the last election his fame increased more among college presidents than among any of the other groups.

As a result of today's election the authors' corner doubles its population and goes far ahead of the statesmen in number. Eleven bronze tablets for the names chosen will be designed with an appropriate quotation from the works of each, and the formal unveiling will take place in October, 1911, in the Hall of Fame at New York university.

The vote of 74 for Harriet Beecher Stowe is noteworthy, as the only one who received such a majority in the election in 1905 was Louis Agassiz; and in the first election the number was surpassed by only fourteen names, including Washington, Lincoln, Grant and Emerson. One of the most interesting results is that whereas the historian, Motley, gained 4 votes over the election of five years ago, the historian, Parkman, lost 2 votes, Phillips Brooks gained 11 votes. Oliver Wendell Holmes increased 20 votes, his competitors, Lowell and Whittier, having been removed by election.

Room for C. M. Cade.

Guthrie, Ok., Oct. 23.—The Pawhuska Capital has launched a boom for the appointment of Cassius M. Cade, the Shawnee banker and republican national committeeman from Oklahoma as secretary of the interior to succeed Ballinger, when the latter resigns.

Women's Names New.
In the vote for women the names chosen are those of women who were not eligible at the last election, not having been dead ten years at that time. Of those who were voted for in the last election, but still lack the necessary votes, Charlotte Saunders Cushman shows a gain from 39 to 45 votes; Martha Washington from 33 to 41.

Those failing of election by 10 votes or less were Francis Parkman, Charlotte Saunders Cushman, Mark Hopkins, 45 each; Patrick Henry, 44; Martha Washington, 43; Daniel Boone, 42; Samuel Adams and Lucretia Mott, 41 each.

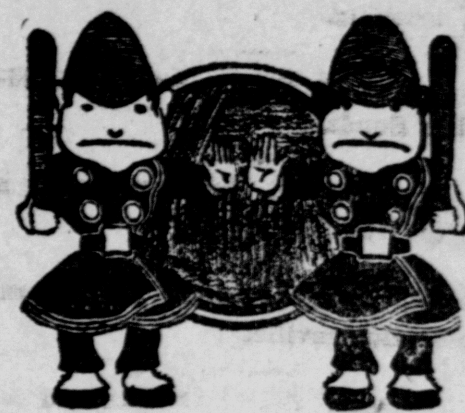

Creager's Pie.

A republican has at last been found who cared so little for pie that he threw it away, and he is finding himself in serious trouble as a result. A few days ago Congressman Creager attended a pie supper in some small place in his district and bought a pie at auction. It was a part of the game for the purchaser of one of these pies to eat with the maker thereof. Creager either did not know this or else felt that it was beneath the dignity of a congressman to eat with an ordinary girl, so he threw the pie away and took his departure. This little incident has created some stir in his district and the friends of the slighted girl are swearing vengeance. The "Rum, Romanism and Rebellion" speech of Dr. Burchard caused the defeat of Blaine for the presidency in 1884, and it would be a joke indeed if an insignificant pie were to prove the undoing of Creager.

Trains to Denison Soon.

Denison, Tex., Oct. 23.—I. H. Kuke, general manager, of the M. O. and G. railway company, Percy Talbott, general freight agent, and C. W. Andrews, general agent, spent yesterday in the city looking over the local yards and other property of the road at this point. Mr. Luke expressed himself as being well pleased with the work here as far as it had gone, and said that he was anxious to get regular

trains operating into Denison soon, but said that no trains would be operated into the city on a regular schedule until their track into Denison was in first class shape.

SOUVENIR FREE To any person (not children) who will allow the Majestic Man to show them the merits of THE GREAT MAJESTIC RANGE during demonstration, will get a useful and beautiful souvenir FREE.

Reasons Why The Great Majestic You Should Buy

1st. It has the reputation of being the best range money can buy.
2d. It not only has the reputation but IS the best range made, and we will prove this to you if you will let us.
3rd. It is constructed of malleable iron, material you can't beat, and of charcoal iron, material that resists rust 200 per cent greater than steel, is riveted together airtight. No heat escapes or cold air enters the range, thus uses very little fuel to do perfect work.
4th. The reservoir alone is worth the price of range over any other reservoir made. It boils 15 gallons of water; is heated like a tea kettle, with pocket against left hand lining, and is movable and sets on a frame, hence cannot wear out. When water gets too hot it can be moved away from fire.
Majestic ranges use less fuel; heat more water—and heat it hotter; costs practically nothing for repairs; lasts three times as long; bakes better; easier to keep clean and give better satisfaction than any other range on the market. If you know positively that the above statements are true, wouldn't you buy a Majestic at once? Come in Demonstration Week and we'll prove it to you.
